Professional Experience

Business & Commercial Analyst – Max Lambda Company Limited

Feb 2025 – Present

Spearhead sales operations including...

- Prepare analytical and management reports highlighting business performance, operational insights, and key trends for leadership review.
- Analyse client quotation requests for alignment with technical, regulatory, and internal compliance requirements.
- Supervise the sales team in analysing price, lead-time, and cost variances to ensure quote accuracy and competitive value.
- Manage quotation and purchase order databases to track RFQs, approvals, and PO conversions

Past Experiences

Pharmacy Administration & Data Analyst – Richcord Company Limited

Aug 2024 – Jun 2026

- Analysed sales trends, stock movement patterns, and product demand to support restocking decisions and inventory optimization.
- Prepared sales, profit & loss, and inventory performance reports to support business planning and operational decisions.
- Maintained drug inventory and sales databases, ensuring accurate data entry and validation for newly stocked drugs, periodic stock audits, and accurate credit payment schedule tracking.

Radio Network Optimisation Engineer - Linfra Ghana LTD

Nov 2023 – Feb 2025

- Efficiently resolved customer complaints with accuracy and promptness, ensuring a positive customer experience through timely and accurate information.

- Proactively monitored, analysed, optimised, and delivered comprehensive reports on key performance indicators.
- Utilized tools such as MAPS, MAE, Smartcare, and Excel to analyse trends and identify network performance degradations.

Radio Network Optimisation Engineer (Graduate Trainee) - Huawei Ghana Oct 2022 – Oct 2023

- Proactively monitored and generated reports on key performance indicators.
- Worked closely with a cross-functional team in performing timely network audits on network parameters.
